Important Notice

Extended

The NYCDOT Division of Bridges will begin test pit excavation at the intersection of Park Avenue and 34th Street. This phase is necessary to determine the location of water main infrastructure and is part of the ongoing Park Avenue Tunnel Rehabilitation Project. Temporary parking restrictions and lane closures will be associated with this work on Park Avenue Northbound and Southbound, and on 34th Street.

Excavation will begin on Monday, April 27th and continue until approximately June 15th. Five different test pits will be excavated in succession at the following locations:

- *Southbound Park Avenue near 34th Street median*
- *Southbound Park Avenue at southwest corner 34th Street*
- *Northbound Park Avenue near 34th Street median*
- *Northbound Park Avenue at southeast corner 34th Street*
- *Eastbound 34th Street at southeast corner of Park Avenue*

Traffic Control Agents will be assigned to facilitate the flow of vehicular traffic. Sidewalks will be maintained and pedestrian walkways will be installed. Additional notice will be provided ahead of test pit excavations.

Test Pit Excavations
Park Avenue and 34th Street Intersections
Weekdays, April 27th through June 15th
